Technology

Pioneers don't settle for less.

The SEAT Leon is infused with technology. In every possible way. Full Link technology connecting your smartphone to the car for a seamless driving experience. Wireless Charger, because who would say no to that? And the Start/Stop System that turns the engine off when idling to save fuel. Now it's your turn to have it all.

Technology

Why go at all, if not all the way?

Your SEAT Leon's technology turns it up to 10, inside and out. Reverse while facing forward with the Rear View Camera. Adaptive Cruise Control helps you lead the way and when it comes to parking, front and rear sensors have your back. It's all ready, are you?

Safety

First things first.

There's nothing more important than your safety. That's why we take our technology seriously. Adaptive Cruise Control automatically regulates the distance between you and the car in front at high speeds. Lane Assist looks after you with sensors, allowing the car to adjust steering in the event you drift out of lane.
